RE: Income Survey to help City become eligible for infrastructure grants.

THIS IS NOT THE U.S. CENSUS SURVEY

The City of Ludington would like to apply to the Michigan Economic Development Corporation for a grant to perform necessary expansion and improvements to the City's sewer system. In order to qualify, we need you to complete the survey included with this letter.

Michigan Rural Community Assistance Program (RCAP) will be conducting the survey on behalf of the City. There is no charge for this service.

We are asking that you complete the attached survey and send it back to Michigan Rural Community Assistance Program (RCAP) for compilation of the data in the attached postage paid envelope. If a completed survey is not received within two weeks, you may be contacted again either by mail or in person from a Michigan RCAP representative asking for your assistance completing the survey.

Please be assured that the information you submit will remain confidential. The City of Ludington will not see any completed surveys. RCAP will only give a summary of the results to the City so that the City will know if it is eligible to apply for grants.

If you have any questions please feel free to contact the independent third party RCAP. The contact information is listed below.

Survey Questionnaire

The City of Ludington is conducting a survey of residents to collect information about current household incomes. The information will be used to support a request for federal grant funds under the Michigan Community Development Block Grant (CDBG) Program.

The survey requests information on the number of people in the household and if the household is above or below a certain income level. The survey does not request the actual household income.

The information from the survey will be confidential.

Please complete the income survey and return all pages using the self-addressed return envelope.
