Dear City of Ludington Residents:

The City of Ludington and Republic Services® will begin a new style of recycling collection utilizing a 96-gallon container beginning July 1, 2019.

Inside this mailing you will find a subscription form to receive one of these 96-gallon recycling containers.

If you wish to continue to utilize the city’s recycling program, please take a moment to complete the form and return it as directed.

As recycling continues to evolve in the United States, residential contamination has reached record levels as countless non-recyclable items find their way into the recycling containers. To be the best recyclers possible, please see the inside of this brochure for more details about what can and can’t be recycled.

Beginning July 15, the first week of the new monthly collection will begin. Your recycling will still be collected on your regular scheduled day, but only during the third week of each month, so please place your recycling at the curb the night prior or by 7 a.m. to ensure collection.

If you have any questions, please feel free to reach out to Matt Biolette (the city’s contact person at Republic Services) by emailing mbiolette@republicservices.com.

Sincerely,

Steve Miller - Mayor

City of Ludington
New Recycling Program
As a resident of the City of Ludington, you are eligible to participate in this program if you subscribe for a 96-gallon container. To register to receive a 96-gallon recycling container, you must complete and return this form.

Please complete the form below to begin your new recycling service. Republic Services will be changing the pickup from weekly to the third week of each month beginning July 1, 2019.

Recycling collection will occur on the same day as your waste collection.
